Fertility Services, UCLA

Phone: 310-794-7274

The UCLA Fertility and Reproductive Health Center manages complicated problems related to [infertility](#), [polycystic ovary syndrome](#), miscarriage, [endometriosis](#), early ovarian insufficiency, abnormalities of menstruation, [fibroids](#), congenital malformations of the female reproductive tract, and other reproductive problems of women. It also provides counseling and treatment regarding the risk of transmitting genetic disorders to offspring.

All of its fertility physicians are reproductive endocrinologists, trained by the American Board of Obstetrics and Gynecology, who offer women and their partner a collaborative approach to health care, using cutting-edge, state-of-the-art diagnostic tests and therapies integrated with other UCLA specialists.

All fertility services are comprehensive, compassionate and individualized, based upon mutual respect and the needs and preferences of the couple.

Fertility services offered by the UCLA Fertility and Reproductive Health Center include medical and/or surgical management of the above problems and all aspects of assisted reproductive technology, including:

- [In Vitro Fertilization \(IVF\)](#)
- [Embryo and oocyte cryopreservation](#)
- [Assisted hatching](#)
- [Intracytoplasmic sperm injection \(ICSI\)](#)
- [Preimplantation genetic diagnosis \(PGD\)](#)
